Declaration of Conformity

REACH

Regulation (EC) No. 1907/2006

(Registration, Evaluation, Authorization of Chemicals)

According to the provisions of REACH, Microtherm GmbH, as manufacturer of products, is to be regarded as a "downstream user". As a matter of principle, Microtherm, as downstream user, observes all requirements resulting from REACH.

Products, which you purchase from Microtherm, are, by definition of REACH, not to be registered. Chemical substances contained in our products, which may possibly be subject to registration, have to be registered exclusively by our pre-suppliers.

In our own interest and to ensure a high level of safety in our production, we observe the implementation of REACH and its resulting demands closely. In particular we contacted our pre-suppliers, from whom we purchase chemical substances and preparations, which we use in the course of our production process (e.g. auxiliary substances like lubricant, insulations etc.). Our processes are mainly standard applications, which are operated in many industries in large quantities.

Against this background many of our pre-suppliers already signaled, that a pre-registration respectively a later registration of the relevant substances will be completed by them.

In respect to above mentioned regulation we confirm, that all our products do not obtain any hazardous substances (SVHC) according to the candidate list of ECHA, dated October 28, 2008 in a concentration of more than 0,1 mass percent.

In case of further questions regarding "REACH", we will always be at your disposal. Please do not hesitate to contact our head of quality management, Mr. Rolf Weishaupt, Email: Rolf.Weishaupt@microtherm.de.

Pforzheim, 17th of September 2009

Andreas Beckmann, Chief Executive Officer

Rolf Weishaupt, Head of Quality Management
